

Please note that cable specifications may be changed by manufacturer. Contact us for a more complete list of manufacturers and cable types.

\*\* These cables have smaller center conductors than others in this group. The contacts will not work well with a crimp, and therefore must be soldered during installation

For your convenience, we have assigned a cable group letter to similar cables from different cable manufacturers. If you don't find a certain cable below, a more extensive list of cables by manufacturer are found on the following pages.
